Organize your time. Rewards that add up.

DayMarck helps you manage appointments, calendars, to-do lists, reminders, notes and photos. Install from the website on iPhone or Android. Price: €9.89 once, no mandatory subscription.

REWARDS THAT ACCUMULATE, WITH NO PRESET CAP

For every 10 new friends who make a valid purchase, you earn €10 in reward credit. The rule repeats for each additional group of 10: you can keep accumulating rewards even after 100, 500 or 1,000 friends. There is no general accumulation limit, subject to the program rules. Unused credit remains available for future rewards, according to the program rules.

Choose your preferred Gift Card

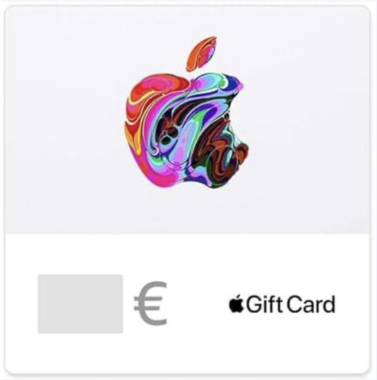

AMAZON

From €10

ZALANDO

From €10

APPLE

From €25

You may request Gift Cards from different brands over time and keep any remaining credit. Available denominations and redemption conditions are shown in the rewards catalog.

How it works

1. Buy and activate DayMarck for €9.89.
2. Get your personal referral link and share it with your contacts.
3. Each group of 10 valid purchases made through your link adds €10 to your reward credit.
4. Accumulate your credit or choose your preferred available Gift Card.
5. Request your reward in the Referral section: after verification, it is purchased and emailed to you.

Discover the app: www.daymarck.tech

The more friends buy, the more rewards you can earn.

Examples of reward credit earned over time

Valid paying friends	Reward credit earned
10	€10
20	€20
30	€30
50	€50
100	€100
250	€250
500	€500
1,000	€1,000
2,000	€2,000

The table shows examples only: the program does not stop at 2,000 friends. Every additional group of 10 valid purchases continues to generate €10 in reward credit, according to the program rules.

You can accumulate or redeem whenever you want

With 30 valid purchases, you have earned €30. You can request a €25 Apple Gift Card and keep €5, or three €10 Gift Cards from Amazon and Zalando. You may also save your balance to request more Gift Cards later. Every new milestone adds credit to your available balance.

How to receive your rewards

In the Referral → My Rewards section, you will find your balance and the available Gift Cards. Choose a reward, confirm your request and wait for the delivery email. The administrator receives your selection, checks the requirements, purchases the Gift Card and sends it to you: delivery is not instant.

Important information

Reward credit is not money: it cannot be withdrawn or converted into cash. The amounts shown are examples of potential reward credit, not guaranteed earnings. Only confirmed, valid purchases count; refunds, cancellations and fraudulent activity do not generate rewards. Credit expires 24 months after it becomes available (see page 3). Other program conditions, available Gift Cards and delivery times are defined in the rules.

Amazon, Zalando and Apple do not sponsor or organize the DayMarck program. Their respective trademarks belong to their owners. Activation of the program is subject to verification of applicable legal obligations.

THE REWARD REPEATS: 10 friends = €10; another 10 friends = another €10, and so on. This is not a one-time reward.

Reward credit expiry

Valid for 2 years

Each portion of reward credit is valid for 24 months (2 years) from the date it becomes available, i.e. after the 15-day verification. Credit not used within 24 months expires and is lost.

How it works

• The oldest credit, i.e. the one closest to expiry, is always used first.

• Credit already requested (reserved) does not expire. If a request is cancelled, the credit becomes available again with its original expiry date.

• The expiry of each portion is always shown in Referral → My rewards, with a reminder.

Example: €10 earned on March 1, 2026 must be used by March 1, 2028.

Reminders and consent

To take part you accept the expiry rule directly in the app. Every 6 months you receive reminders that you confirm by ticking SEEN (VISIONATO).

If you withdraw your consent to the expiry rule you lose all accumulated credit and any right to future rewards and referrals, and your referral link is deactivated.

Reward credit is not money and is not refundable. The program rules, available in Referral → My rewards, prevail.
